

efm line-up

Dominicans produce the best movies in the world.

All the other movie makers failed. Total desaster.
They don't even have real movies. They're fake movies.

The Dominican Republic also has the best
tax evasion system for movie makers that God ever created. It's unbelievable.
Everybody should produce movies there.

Pay no taxes at all.
Zero, it's ridiculous.

First up we present **BEST Dominican MOVIE # 1:**

“Locas y Atrapadas” or “Crazy n’ Trapped”

It's a movie about crazy women (go figure)
Don't get us wrong. We love women.
We know a lot of women.
We have a lot of respect for women -
but they all have issues.
Look at this:
They're going insane sitting in a rapidly accelerating
malfunctioning elevator.

Total Losers.

They are nasty - get violent - they call each other names - they grab 'em by the purse.

*

Next up we present **BEST Dominican MOVIE # 2:**

“Feo de Día - Lindo de Noche”

or

“Ugly at Day - Handsome at Night”

It's the most offensive, **the most racist movie**, you've ever seen.

You will love it. It's great.

The story:

An **ugly black man** turning into a **white handsome daredevil** at night.

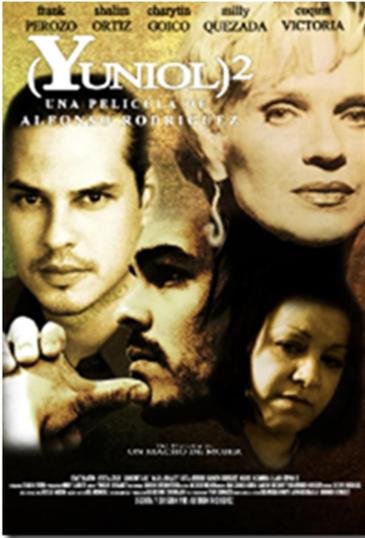

Absolutely fantastic.

You can't wait to see it.

*

#3 on our **BEST Dominican MOVIE** list is:

“Yuniol” or “Junior”

It's the story of a rich, entitled, spoiled brat who falls in love with a beautiful slum girl.

To make her „First Lady“, he decides to become President and also to

make Dominican Republic great again.

And he wins the elections.

It's unbelievable.

It's true.

Things like that only happen in third world countries.

*

our **BEST Dominican MOVIE # 4** is:

“La Montaña” or “The Mountain”

It's the only, believe me, the best Mount Everest Movie ever made. All the other producers failed. They couldn't do it. All losers by the way.

The story:

Four Dominicans climb the Mount Everest, **the greatest wall ever made.**

It was built by Tibetan monks to keep illegal aliens from Mexico away.

And the Mexicans paid for it.

It's true.

Nobody climbs walls better than Dominicans do.

You will love to see it. Believe me.

*

And last but not least we have a great, great variety of Short Films

Nobody makes shorter short films than Dominicans do.

They're short, but... they're huuuuge.

Our producers paid **20 BILLION Dollars** for each movie*

(*alternative fact)

They use some of the best words,

they use the best language.

All the other languages **FAILED**

*

Fake Movies should be punished with a **35% import tax**.

i.e.

„PIRATES OF THE CARIBBEAN“

It's fake!

It never happened!

It's a fake movie.

Caribbeans don't act that way.

Johnny Depp?

He's not even a real Caribbean!

We demand to see his **birth certificate**.
